#### PORTFOLIO MANAGER COMMENTARY

Patience may be a virtue, but investors have little choice following the Nov. I Federal Reserve policy-setting meeting. It again left rates unchanged in the 5.25-50% range, pushing the fate of its inflation-fighting campaign to at least December. "Given how far we have come along with the uncertainty and risks we face, the committee is proceeding carefully," said Chair Jerome Powell. The beleaguered central bank seems finally to have caught a break, with two factors aiding its cause and buying it time.

First, the bond market is doing the Fed a favor with its ferocious backup in yields from the belly of the yield curve outward. In theory, this acts like policy tightening as it discourages borrowing, business planning and a host of reactions that could dampen activity. However, Powell said policymakers want to see if the tighter financial conditions continue and don't think the rise in long-term yields is due to near-term shifts in policy expectations.

Then there's the economy itself, a case study in mixed signals. As stunning as the September jobs report was with an addition of 336,000 jobs—the largest monthly gain since January—temporary help fell, household employment barely rose and two other labor-market reports (ADP and Challenger) were weak.

Likewise, a consumer-fueled jump in third-quarter gross domestic product growth of 4.9%—the biggest gain since the fourth quarter of 2021—has been tempered by mediocre manufacturing reports, poor affordability for homebuyers and vanishing corporate spending.

Most important, of course, is inflation, which continues to repel the Fed's aggressiveness. The two main measures remain well above the 2% target: the core Personal Consumption Expenditures and core Consumer Price Index had annualized rates of 3.7% and 4.1%, respectively, in September. All told, we think the December Federal Open Market

Committee meeting is an active one, meaning a quarter-point hike is possible. More data releases and a new Summary of Economic Projections should provide clarity. If the Fed forgoes action, we can't rule out a hike in 2024.

With the GOP finally electing its speaker in the House of Representatives, we can turn our focus to...more turmoil. Specifically, the potential for a federal government shutdown on Nov. 17, the date the short-term extension from October ends. While new Speaker Mike Johnson has made avoiding one a priority, it certainly could happen. As a reminder, a government shutdown has little impact on the markets because the issuance and repayment of U.S. debt obligations are considered essential, so they continue as usual. Also, these affairs typically end quickly.

The Treasury Department released its quarterly refunding plans Nov. I. Increases to auction sizes for coupon securities out the yield curve were a little smaller than anticipated. The supply of Treasury bills is expected to remain robust, although the Dept. may modestly reduce auction sizes in December.

In October, assets of the Pool declined by \$600 million to \$19 billion. This is the typical period of net outflows by participants for operational expenses and other reasons. The yield of the portfolio rose 3 basis point to 5.67%. The Pool's Weighted Average Maturity extended by 8 days to 44 and its Weighted Average Life (WAL) longer by 7 days to 83. Trades were focused all along the liquidity yield curve, from overnight to I-year, and across all approved security types, such as commercial and bank paper, in both fixed- and floating-rate instruments.

At the end of the month, yields on I-, 3-, 6- and I2-month U.S. Treasuries were 5.39%, 5.47%, 5.57% and 5.42%, respectively; the I-, 3-, 6- and I2-month Bloomberg Short-Term Bank Yield Index rates (BSBY) were 5.39%, 5.63%, 5.79% and 5.89%, respectively.

#### ABOUT ANNUALIZED YIELDS:

Performance data in the table and chart is annualized, meaning that the amounts are based on yields for the periods indicated, converted to their equivalent if obtained for a 12-month period.

For example, ignoring the effects of compounding, an investment that earns 0.10% over a 1-month period yields 1.20% on an annualized basis. Likewise, an investment that earns a total of 3.60% over three years yields 1.20% on an annualized basis, ignoring compounding.

The 7-Day "SEC" Yield in the chart is calculated in accordance with the yield methodology set forth by SEC Rule 2a-7 for money market funds. The 7-day yield = net income earned over a 7-day period / average units outstanding over the period / 7 times 365. Note that unlike other performance measures, the SEC yield does not include realized gains and losses from sales of securities.

#### COMPLIANCE WITH INVESTMENT POLICY FOR OCTOBER 2023

As investment manager, Federated monitors compliance daily on Florida PRIME to ensure that investment practices comply with the requirements of the Investment Policy Statement (IPS). Federated provides a monthly compliance report to the SBA and is required to notify the Investment Oversight Group (IOG) of compliance exceptions within 24 hours of identification. The IOG will meet as necessary based on the occurrence and resolution of compliance exceptions or upon the occurrence of a material event. Minutes from the IOG meetings are posted to the Florida PRIME website.

In addition to the compliance testing performed by Federated, SBA Risk Management and Compliance conducts daily independent testing on Florida PRIME using a risk-based approach. Under this approach, each IPS parameter is ranked as "High" or "Low" with respect to the level of risk associated with a potential guideline breach. Negative test results are subject to independent verification and review for possible escalation. These rankings, along with the frequency for testing, are reviewed and approved by the IOG on an annual basis or more often if market conditions dictate. Additionally, any parameter reported in "Fail" status on the Federated compliance report, regardless of risk ranking, is also independently verified and escalated accordingly. The results of independent testing are currently reported monthly to the IOG.
